

TITLE: Licensed Operator

FLSA Status: Non-Exempt

Employment Status: Regular Full Time

SUMMARY

The Licensed Operator reports to the Lead Operator and or Operations Supervisor. This position is expected to be responsible for the operation of Pump Stations, Preliminary, Primary and Secondary wastewater treatment systems and the mechanical, electrical and instrumentation equipment associated with these systems. This is a rotating 10 -hour shift position.

RESPONSIBILITIES

- Operate and perform minor routine maintenance on valves, gates, pumps, odor control systems, disinfection systems, constant and variable speed pumps and other associated equipment as required or as directed.
- Monitor and record various information and data from strip charts, circular charts, totalizers, gauges, programmable logic controllers, computers, and other monitoring and control systems to ensure proper operation. Reports abnormal conditions to supervisors.
- Take samples of wastewater or sludge for laboratory analysis and record sludge levels in various tanks.
- Prepares chemical solutions for process additions, records, monitors and controls sludge and chemical feed levels in various tanks.
- Assist all other Operations, Systems, or Maintenance personnel as directed.
- Perform scheduled and emergency mark-out services.
- Adjust, operate and perform routine maintenance on various valves, pumps, and other mechanical/electrical equipment required to operate the pump stations, preliminary, primary, secondary, scum and anaerobic digester treatment process.
- Operate and monitor large pumps and chemical addition equipment. Adjust pumping and feed rates as required.
- Perform scheduled pump, weir and bar screen cleaning for rag and debris removal.
- Monitor the operation and respond to alarm conditions of the wastewater collection systems, (gravity sewer conditions, submersible pumps, level controls, bar screens/baskets, odor control systems and standby generators).
- Licensed Shift Operator will be instructed and must learn to operate a roll-off container truck and forklift.
- Make scheduled rounds of all facility buildings and help provide plant security.
- Clean all floors, stairways, handrails, pumping and conveying equipment, and other equipment and process areas, areas of egress, and areas as required or as directed by the Lead Shift Operator or Operations Supervisor.
- Perform and maintain inspection records in accordance with the Authority's Stormwater plans.
- Performs routine and emergency mark outs.
- The Licensed Shift Operator is afforded the opportunity and is encouraged to learn other job responsibilities. This is accomplished by supervised "on the job training" as time permits. Licensed Shift operators are required to attend wastewater, maintenance, laboratory, and other professional development classes in order to prepare for advancement and keep all required wastewater licenses current.
- Perform work safely at all times by observing all safety rules and regulations and by utilizing all available safety equipment.
- Comply with all provisions and requirements of the lockout/tag-out safety program prior to working on any potential energized device.
- Maintain commercial driver's license (CDL) in good standing at all times and submit to random and accident-related drug and alcohol testing under Federal Regulations and CCUA Policy.
- Performs all other duties as assigned or directed.
- Grass cutting at both the Treatment Plant and Pump Stations.

MINIMUM EDUCATION AND EXPERIENCE REQUIREMENTS

- HS diploma or GED.
- Must have a minimum of 1 year of operations and/or maintenance work experience in the wastewater treatment or wastewater collections systems field.
- New Jersey Wastewater Treatment System Operator's License S-1
